F&Q

1. Why was the Valley Pass removed from the program's benefits?

Since boot packers are now paid employees, we needed everyone to commit to at least 4 days. We removed all earned benefits from 1-3 days.

2. Why was the Parking Pass removed from the program's benefits?

Since our parking structure is at capacity for the majority of the season, we removed this pass from the program. But this season, you are eligible to purchase a discounted parking pass after you boot pack 7 days. The price is \$679, 20% off the full rate. Please let us know if you want to take advantage of this additional offer. Your boot packer credit cannot be applied to this product.

3. What if I have purchased an ASC season pass already?

If a guest becomes eligible for a comp or discount pass, your original pass purchase is 100% refundable (used or unused) to the original form of payment through the end of the boot packing program.

4. If I qualify for a Chamber Pass, may I use my boot packer credit towards my discounted chamber pass?

No. The Boot Packer program is a separate pass program with independent values. The chamber pass is owned by the business that you work for, and if you currently have a chamber pass and choose the season pass track, the business can choose to have the pass refunded or transfer it to another employee.
